ELEKTROTEKS Catalog: [ELEKTROTEKS Machinery Catalog](#)

Category: Machinery/Equipment

ELEKTROTEKS is a global manufacturer of mattress and foam production equipment, industrial automation systems, and conveyor solutions. Operating from a 65,000 m² manufacturing facility with more than 390 employees, ELEKTROTEKS supplies machinery and production systems to customers in more than 135 countries.

Our product portfolio includes complete mattress production lines, quilting machines, foam cutting equipment, gluing systems, packaging machines, mattress border machines, material-handling equipment, factory automation, and conveyor systems.

Beyond the mattress and foam industries, ELEKTROTEKS also designs and manufactures standalone conveyors, customized material-handling systems, and integrated conveyor solutions for a wide range of industrial applications, helping improve productivity, ergonomics, workplace safety, and factory automation.

With the acquisition of MAMMUT, one of the world's established quilting machine manufacturers, ELEKTROTEKS further strengthened its portfolio with advanced quilting technology for mattress and home textile production.

ELEKTROTEKS maintains a strong U.S. presence through its company and warehouse in Richmond, Virginia, providing local technical support, installation, training, spare parts, and responsive after-sales service. Our Richmond warehouse maintains approximately 95% availability of commonly required spare parts.

ELEKTROTEKS can provide individual machines, conveyor systems, production-line upgrades, automation projects, and complete turnkey manufacturing solutions.
