

## Working on the Inside - Succeeding on the Outside

The National Correctional Industries Association (NCIA) is an international nonprofit professional association representing all 50 state Correctional Industry (CI) agencies, Federal Prison Industries, foreign CI agencies and city/county jail industry programs.

Private sector companies that work in partnership with CI both as suppliers/vendors and as partners in apprenticeship and work programs are also members.

### What Incarcerated Individuals Are Saying about CI

TOP TEN  
BENEFITS OF  
CORRECTIONAL  
INDUSTRIES

# Top Ten Benefits of Correctional Industries

## Reduces Recidivism

Correctional Industries (CI) is a proven program that works. CI's recidivism rate of **15.4%** vs. the state rate of **29.8%**<sup>1</sup> illustrates that CI workers have a lower recidivism rate than the average incarcerated individual.

## Saves Taxpayers Money

**90%**<sup>2</sup> of CI programs are self-funded and operate solely from the revenue they generate from the products and services they provide, without relying on tax-appropriated funds.

## Keeps Prisons & Communities Safer

CI programs effectively reduce idleness inside our prisons which is proven to decrease violence against staff and incarcerated individuals. CI provides incarcerated individuals with job skills, enabling them to successfully reenter society, obtain employment, and contribute as tax-paying citizens.

## Reduces Cost of Incarceration

The existence of self-sustaining CI programs offsets the need to spend additional taxpayer dollars for incarcerated individual supervision and alternative program costs.

## Generates Return on Investment

A Washington State Institute for Public Policy study concluded that CI programs generate significant savings of taxpayer dollars. For every **\$1.00** spent on CI, **\$4.77**<sup>3</sup> is saved in future criminal justice costs due to the reduction in recidivism.

## Supports Businesses & Economy

CI purchases over **\$1.2 Billion**<sup>4</sup> in raw materials, supplies, component parts, equipment and services to support its operations. In doing so, they rely heavily on small businesses in the community, returning much of the revenue to local businesses.

## Builds Family Ties

Incarcerated Individuals working in CI are able to send a portion of their earnings home to support their families, offsetting the need for additional taxpayer public assistance programs. Over **\$55 Million**<sup>5</sup> has been contributed to Family Support Payments through the Prison Industry Enhancement Certification Program (PIECP).

## Provides Victim Restitution

Incarcerated individuals who participate in CI programs are able to contribute to their financial obligations from their earnings.

Over **\$114 Million**<sup>6</sup> has been contributed to Victim Compensation and Restitution Funds through PIECP.

## Supports Veterans

CI employs veterans in both civilian staff and incarcerated worker positions. CI works with disadvantaged and disabled veteran-owned businesses.

## Made in the USA

Products manufactured by CI are made in the United States, supporting domestic jobs and our nation's economy. CI serves as a domestic resource to perform work that would otherwise be done outside the United States.
